RULES AND REGULATIONS

DEFINITIONS

DEFINITIONS APPLICABLE TO RULES AND REGULATIONS:

- (a) "Customer" shall mean any person, firm, corporation or municipality supplied by water service pursuant to these Rules and Regulations.
- (b) "Bona fide prospective customer" shall mean any owner or lessee who is to be the occupant of an existing developed premises having a curb line abutting on that part of a street or public highway in which there is, or is to be, located a distribution main of the Utility, who shall file a signed application for a new street service connection and for water service to such premises to be occupied.
- (c) "Utility" shall mean the Nicholas County Water District acting through its managers, or other duly authorized employees or agents.
- (d) "Street service connections" shall mean a pipe with appurtenances used to conduct water from a distribution main of the Utility to the curb line of the premises.
- (e) "Premises" shall mean and include:
 - a building under one roof and occupied as one business or residence and served through one street service connection; or
 - (2) a combination of buildings in common ownership in one common enclosure or on a single tract of land not crossed by public streets, roads, or ways and occupied by one family or business and served through one street connection or through more than one such connection if in the exclusive discretion of the Utility, multiple connections are advisable in providing service; or
 - (3) one side of a double house having a solid vertical partition wall or each unit of a series of what are commonly known as row houses, each unit being occupied by one family or business and each served through one street service property COMMISSION OF KENTUCKY EFFECTIVE

RULES AND REGULATIONS

DEFINITIONS Cont'd.

- (4) a building having a number of apartments or offices and using halls and means of entrance in common, and served through one street service connection; or
- (5) a building previously erected as a single family residence served through one street service connection and subsequently converted into apartments or offices or a combination of such, with two or more separate halls and means of entrance not used in common, and where separate water supply plumbing would not be practicable; or
- (6) each residential or business single occupancy unit, served through one street service connection, in a building which is not a premises otherwise defined in these Rules.
- (7) Rates are based on single family residences or multi-family units and are not applicable to other single family residences or multi-family units. Where two or more residences or multi-family units are served through one street connection the Utility may allow service to be taken through one meter if the segregation of plumbing on customer's premises would involve undue expense to the customer, but in this event the unit blocks and minimum bills of rate would be multiplied by such number of residences or units.

PROVIDED: They are located on lots having curb line abutting on that part of a street or public highway in which there is, or is to be, located a distribution main of the Utility extending for at least one-half of the frontage of the lot on said street or highway.

RULES AND REGULATIONS

1. RULES AND REGULATIONS GOVERNING RENDERING OF SERVICE:

- (a) The Rules and Regulations in their entirety as hereinafter set forth or as they may hereafter be altered or amended in a regular and legal manner shall govern the rendering of water service and every customer upon signing of an application for water service or upon the taking of water service will be bound thereby.
- (b) Except fire and special temporary services, all service will be rendered on a meter basis. Residential, commercial, industrial and municipal service is only regularly available for single premises as "premises" is defined in these Rules. When the interests of other customers would not be jeopardized or prejudiced, the Utility's President or a Vice President may, by writing, authorize service at regular rates to governmental or political corporations, districts, or authorities not qualifying as "premises" under these Rules. In special cases, for good cause shown, the Public Service Commission may permit deviations from this Regulation.

RULES AND REGULATIONS

APPLICATIONS FOR WATER SERVICE

(a) New Street Service Connection

Upon written application by the owner, or his properly authorized agent, on forms furnished by the Utility, for the immediate and continuous supply of water to premises having a curb line abutting on that part of a public street or highway in which a distribution main of the Utility is located, the Utility will install, own and maintain the street service connection to such premises. The Utility shall determine the size of all street service connections.

(b) <u>Existing Street Service Connection</u>

When any person, firm or corporation, not theretofore taking water service from the Utility, applies for water service, the application shall be in writing on forms supplied by the Utility. When such application is accepted by the Utility, it shall constitute a contract between the applicant and the Utility for service at the premises named in the application and at any other premises at which the named applicant may be securing service unless a separate application for service to such other premises shall have been accepted by the Utility.

Any change in the location of the contracting customer to any other premises will require notification of the Utility by the Customer. The obligation of the customer to the Utility under the existing contract will continue in full force and effect at the new location, premises or address.

The Utility shall have the right to discontinue the supply of water to any premises if the owner or occupant does not have a contract for such service with the Utility. Within twenty-four (24) hours after such termination, the Utility shall send written notification to the Customer of the reason or reasons for the termination of service.

RULES AND REGULATIONS

3. USE OF WATER IN ACCORDANCE WITH APPLICATION:

No person or persons, corporation or partnership receiving water service from the Utility will be permitted to use water for any other purposes than that for which they shall have contracted to pay as shown by their application, nor shall they supply water in any way to any other party or parties without a written permit from the President or a Vice President of the Utility. An accepted application for water service to any premises shall constitute a license to the applicant to take and receive a supply of water for said premises but only for the uses specified in such applications and the supply shall not be used except for the premises specified in the application.

4. SPECIAL APPLICATIONS FOR WATER SERVICE:

- (a) Water for transient, temporary or special services must be specially applied for.
- (b) Water for building or construction purposes, when not furnished on an application for regular metered service, will be supplied under special application.

5. CUSTOMER'S LIABILITY FOR CHARGES:

A customer who has made application for water service to any premises shall be held liable for all water service furnished to such premises. Any customer desiring service terminated or changed from one address to another shall give the Utility three (3) working days' notice in person, in writing or by telephone.

CUSTOMER'S SERVICE PIPES: 7.

- The Utility will specify the size, kind and quality of the (a) materials which shall be laid between the curb line and the structures on the premises to be supplied.
- (b) The service pipe from the meter box to the place of consumption shall be furnished and installed by the Customer at his expense and risk.
- (C) The Customer's service pipe and all connections and fixtures attached thereto shall be subject to the inspection and approval of the Utility before the water will be turned on.
- (d) The service pipe shall be laid below the frost line at all points and shall be placed on firm and continuous earth so as to give unyielding and permanent support, and shall be installed in a trench at least two feet in a horizontal direction from any other trench wherein are laid gas pipe, sewer pipe, or other facilities, public or private, unless specifically authorized and approved by the Utility.
- (e) The Customer shall install a stop and waste cock of a type approved by the Utility on the service pipe immediately inside the foundation wall of the building supplied, and to be located so as to be easily accessible to the occupants and to provide proper drainage for all of the pipes in the building.
- (f) The Customer shall make all changes in his portion of the service pipe required on account of changes of grade, relocation of mains or other causes.
- (g) No fixtures shall be attached to or any branch made in the service pipe between the meter and the street main.
- (h) Each premises shall be supplied through an independent service pipe from a separate meter box and the applicant for service shall be solely responsible for all water used on and in said premises.

RULES AND REGULATIONS

- (i) When more than one premises is supplied through a single service pipe, any violation of the Rules and Regulations of the Utility with reference to either or any of the said buildings or premises shall be deemed a violation as to all and the water service shall be discontinued after the Customer has been given at least ten (10) days written termination notice and reasonable opportunity allowed for each premises to attach their pipes to separately controlled service connections.
- (j) Any repairs or maintenance necessary on the Customer's service pipe or on any pipe or fixture in or upon the Customer's premises shall be performed by the Customer at his expense and risk.
- (k) In those instances where the Customer requires water pressure which differs from the standard pressure provided by the Utility he shall be required to install and maintain at his own expense the necessary equipment to provide the desired pressure. Such equipment and the installation thereof to be approved by the Utility. In no event, however, shall the pressure at the Customer's service pipe under normal conditions fall below thirty (30) psig nor shall the static pressure exceed 150 psig.

8. PLUMBING WORK MUST BE APPROVED BY COMPANY:

All plumbing work done in connection with the Utility's water mains or appurtenances shall be submitted for the inspection of the Utility, and no underground work shall be covered up until inspected and approved by the Utility. Whenever the Utility determines that a job of plumbing is obviously defective, although not in direct violation of these Rules and Regulations, the Utility will insist upon its being corrected before the water will be turned on.

Nicholas County Water District (Name of Utility) RULES AND REGULATIONS 10. METER TESTS AND TEST FEES: (a) All meters are accurately tested before installation and are also periodically tested in accordance with the Public Service Commission's regulations. The Utility may at any time remove any meter for periodic tests or for repairs or replacement and may, at its option and expense, test any meter when the Utility has reason to believe that it is registering inaccurately. (b) The Utility shall make a test of the accuracy of any meter upon written request of the Customer, provided the Customer does not request such test more frequently than once in twelve months. For such request test, the fee as established herein shall be paid in advance by the complainant but should the said meter be found, upon said test, to be more than two (2) percent incorrect to the pre-judice of the Customer, the fee so charged shall be returned to the complainant. (c) In addition to the request tests of meters performed by the Utility, the Customer may, upon formal written application to the Public Service Commission accompanied by payment of the fees as set forth, have a test conducted by the Utility in the presence of an employee of the Commission, or by an employee of the Commission. Should the meter by found, upon said test, to be more than two (2) percent incorrect to the prejudice of the Customer, the total cost of such test shall be assumed by the Utility and the amount of the fee paid shall be returned to the Customer. All meters are accurately tested before installation and are also periodically tested in accordance with the Public Service Commission's regulations. The Utility may at any time remove any meter for periodic tests or for repairs or replacement and may, at its option and expense, test any meter when the Utility has reason to believe that it is registering inaccurately. (b) The Utility shall make a test of the accuracy of any meter upon written request of the Customer, provided the Customer does not request such test more frequently than once in twelve months. For such request test, the fee as established herein shall be paid in advance by the complainant but should the said meter be found, upon said test, to be more than two (2) percent incorrect to the pre-judice of the Customer, the fee so charged shall be returned to the complainant. (c) In addition to the request tests of meters performed by the Utility, the Customer may, upon formal written application to the Public Service Commission accompanied by payment of the fees as set forth, have a test conducted by the Utility in the presence of an employee of the Commission, or by an employee of the Commission. Should the meter by found, upon said test, to be more than two (2) percent incorrect to the prejudice of the Customer, the total cost of such test shall be assumed by the Utility and the amount of the fee paid shall be returned to the Customer. (d) For test of meters made upon complaint of the Customer and performed by the Public Service Commission, the charges therefore shall be in conformity with the rules and charges prescribed by the Commission. RULES AND REGULATIONS

11, 12, & 13. PUBLIC FIRE HYDRANTS (Including Private Fire Hydrants) and (Fire Hydrants in Unincorporated Areas)

Fire Protection Generally

- On or after the effective date (June 7, 1992) of administrative regulation 807 KAR 5:066 Section 10(2)(b), fire hydrants may be installed by a Utility only if:
 - a. A professional engineer with a Kentucky registration has certified that the system can provide a minimum fire flow of 250 gallons per minute; and
 - b. The system supporting this flow has the capability of providing this flow for a period of not less than two (2) hours plus consumption at the maximum daily rate.
- 2. The location, installation, and the responsibility for maintenance of fire hydrants, public and private fire protection facilities, connecting mains, and their ownership may be subject to negotiation between the Utility and the applicant. Fire hydrants and public and private fire protection facilities shall be installed as required by the Utility and if owned by the Utility shall be subject to any conditions the Public Service Commission may impose, based upon the compensation received for this service.

RULES AND REGULATIONS

14. DISCONTINUANCE OF WATER SERVICE:

- (a) Service rendered under any application, contract or agreement may be discontinued by the Utility after proper notification in accordance with 807 KAR 5:006 Section 14 for any of the following reasons:
 - (1) For willful or indifferent waste of water.
 - (2) For failure to protect the meter and its connections from injury or damage, or for failure to protect and maintain the service pipe or fixtures on the property of the Customer in a condition satisfactory to the Utility.
 - (3) For molesting or tampering by the Customer, or others with the knowledge of the Customer, with any meter, connections, service pipe, seal or any other appliance of the Utility controlling or regulating the Customer's water supply.
 - (4) For failure to provide the Utility's employees free and reasonable access to the premises supplied or for obstructing the way of ingress to the meter or other appliances controlling or regulating the Customer's water supply.
 - (5) For non-payment of any account for water service, or for meter or service maintenance, or for any other fee or charge accruing under the contract.
 - (6) In case of vacancy of the premises unless the owner requests that water be left on and pays a minimum monthly bill.
 - (7) For violation of any rule or regulation of the Utility.
- (b) The water service will be discontinued to any premises on account of temporary vacancy upon request of the Customer, without in any way affecting the agreement in force, after the payment of all charges and fees due as provided for in the rates, rules and regulations of the Utility.
- (c) Discontinuing the supply of water to any premises figgues revealed not prevent the Utility from pursuing lawful remedies by ACTIVITY and or otherwise for the collection of moneys due from the Cufference E

15. RENEWAL OF WATER SERVICE AFTER DISCONTINUANCE:

When water service to any premises has been terminated for any reason other than temporary vacancy, it will be renewed after the acceptance of a new application and when the conditions, circumstances or practices which caused the water service to be discontinued are corrected to the satisfaction of the Utility, and upon the payment of all charges due and payable by the Customer in accordance with the rates, rules and regulations. The Utility will then reconnect existing service within twenty-four (24) hours, and shall install and connect new service within seventy-two (72) hours.

17. BILLS FOR WATER SERVICE:

- (a) Customers are responsible for furnishing the Utility with their correct address. Failure to receive bills will not be considered an excuse for non-payment nor permit an extension of the date when th account would be considered delinquent.
- (b) All bills will be sent to the address entered in the application unless the Utility is notified in writing by the Customer of any change of address.
- (c) If requested in writing by the Customer, the Utility will send bills to and will receive payments from agents or tenants. However, this accommodation will in no way relieve the Customer of the liability for all water charges and the Utility shall not be obligated to notify the Customer of the non-payment of water bills by such agents or tenants.
- (d) Payments shall be made at the office of the Utility or at such other places conveniently located as may be designated by the Utility.
- (e) The Utility will not be bound by bills rendered under mistake of fact and to the quantity of service rendered.
- (f) The use of water by the same Customer in different premises or localities will not be combined, and each installation shall stand by itself.

19. ABATEMENTS AND REFUNDS:

- (a) If test results on a Customer's meter show an average error greater than two percent (2%) fast or slow, or if a Customer has been incorrectly billed for any other reason, except in an instance where a Utility has filed a verified complaint with the appropriate law enforcement agency alleging fraus or theft by a Customer, the Utility shall immediately determine the period during which the error has existed, and shall recompute and adjust the Customer's bill to either provide a refund to the Customer or collect an additional amount revenue from the underbilled Customer. The account adjustment shall be performed according to 807 KAR 5:006 Section 10(2) with corrected billing or refund as directed therein.
 - (b) Each Customer is entitled to one adjustment (due to a leak) per 12 month period for one billing cycle only. In order to qualify for an adjustment, the customer has 30 days (from the time the water district notifies the customer) to repair the leak. The adjustment will equal an average monthly bill, plus the actual cost of the additional water lost.

20. BOILER AND ENGINE WATER SUPPLY:

The Utility does not guarantee a sufficient or uniform pressure, or an uninterrupted supply of water, and Customers are cautioned to provide a sufficient storage of water where an absolutely uninterrupted supply must be assured; such as for steam boilers, hot water systems, gas engines, etc.

21. INTERRUPTIONS IN WATER SUPPLY:

The Utility may at any time shut off the water in the mains in case of accident, or for the purpose of making connections, alterations, repairs, changes, or for other reasons, and may restrict the use of water to reserve a sufficient supply for public fire service or other emergencies whenever the public welfare may require it.

22. LIABILITY OF COMPANY:

- (a) The Utility will undertake to use reasonable care and diligence in order to prevent and avoid interruptions and fluctuations in the service, but it cannot and does not guarantee that such will not occur.
- (b) The Utility shall in no event be liable for any damage or inconvenience caused by reason of any break, leak or defect in the Customer's service pipe or fixtures.

RULES AND REGULATIONS

24. GENERAL

- (a) The service pipes, meters and fixtures on the Customer's premises shall at all reasonable hours be accessible to the Utility for observation or inspection.
- (b) No person shall turn the water on or off at any street valve, corporation cock, meter or other street connections, or disconnect or remove any meter without the consent of the Utility. Penalties provided by law for any such action will be rigidly enforced.
- (c) Employees or agents of the Utility are expressly forbidden to demand or accept any compensation for any service rendered to its Customers except as covered in these Rates, Rules and Regulations.
- (d) No employee or agent of the Utility shall have the right or authority to bind it by any promise, agreement of representation contrary to the letter or intent of these Rules and Regulations.
- (e) Any complaint against the service or employees of the Utility should be made at the office of the Utility and preferably in writing. If a complaint, either written, in person, or by telephone is not resolved, the Utility shall advise the complainant of his right to file a complaint with the Public Service Commission and provide him/her with their address and telephone number.

25. APPROVAL OF THE RULES AND REGULATIONS:

All Rules and Regulations of the Utility are subject to the approval of the Public Service Commission of the State of Kentucky and if any part thereof should be adjudged to be in violation of any rule or order made by the Commission, then that particular part shall be ineffective but without in any way affecting the other portions thereof.

29. CUSTOMER'S DEPOSITS:

The Utility will require that each customer pay a \$70 cash deposit to secure payment of bills. Service will be refused for failure to pay the requested deposit. Interest, as prescribed by KRS 278.460 will be paid annually either by refund or credit to the customer's bill, except that no refund or credit will be made if the customer's bill is delinquent on the anniversary date of the deposit.

All residential, small business and small commercial customers will pay equal deposits in the amount of \$70. This amount does not exceed 2/12ths of the average annual bill (3/12ths where bills are rendered bimonthly or 4/12ths where bills are rendered quarterly).

The utility may require a deposit in addition to the initial deposit if the customer's classification of service changes, if there is a substantial change in usage, or if actual average monthly usage differs significantly from the average customer's usage within the respective class. Upon termination of service, the deposit, any principal amounts and any interest earned and owing, will be credited to the final bill with the remainder refunded to the customer.

NICHOLAS COUNTY WATER DISTRICT

RULES AND REGULATIONS

If a deposit is held longer that 18 months, the deposit will be recalculated at the Customer's request based on the Customer's actual usage. If the deposit on account differs from the recalculated amount by more than \$10.00 for a residential customer or 10 percent for a non-residential Customer, the Utility may collect any underpayment and shall refund any overpayment by check or credit to the Customer's bill. No refund will be made if the Customer's bill is delinquent at the time of the recalculation.

Equal Deposits

All residential, small business and small commercial customers will pay equal deposits in the amount of \$70.00. This amount does not exceed the average bill of residential customers served by the Utility and is equal to 2/12 of the average annual bill. [3/12 where bills are rendered bimonthly or 4/12 where bills are rendered quarterly].

Calculated Deposits

Large Business/Commercial or Industrial Customer's deposits shall be based upon actual usage of the Customer at the same or similar premises for the most recent 12-month period, if such information is available. If usage information is not available, the deposit will be based on the average bills of similar Customers and premises in the system. The deposit amount shall not exceed 2/12 of the Customer's actual or estimated annual bill where bills are rendered monthly, 3/12 where bills are rendered bimonthly, or 4/12 where bills are rendered quarterly.

NICHOLAS COUNTY WATER DISTRICT

RULES AND REGULATIONS

- 7. Customer service lines and connections must be inspected by Utility personnel to insure against cross-connections and inadequate materials for drinking water.
- 8. Customer service lines shall be of at least 3/4 inch pipe or larger, and shall be at least 160 pounds pressure with 200 psi preferred. Service lines shall be buried at least 24 inches to prevent freezing.
- 9. No galvanized fittings may used on Customer lines.
- 10. A cut-off valve outside the meter box must be installed on the Customer's service line for the Customer's use.
- 11. A check valve to prevent back flow in case of water outage must be installed in the Customer's service line.
- 12. A plumbing inspection permit from the local Health Department must be shown before isntallation of a meter.
- 13. The Utility agrees to supply potable water with adequate pressure to the Customer meter. If water must be off for a planned outage Customers will be notified. In Case of emergency, water line repair or unforseen water outage, the Utility will restore service as soon as possible.
- 14. Upon fulfilling contract terms and desiring to discontinue water service, the Customer must give written notice in person or via telephone pursuant to 807 KAR 5:006 Section 12(1) of discontinuance at the Utility office at least three days prior to the date on which disconnection is desired. If such notice is not given, the customer will remain liable for water used and service rendered to the premises by the Utility until said notice is received by the Utility office.
- 15. Upon signing this contract, the Customer agrees to pay any collection and/or legal fees incurred in past due accounts.

WATER SHORTAGE RESPONSE PLAN

NICHOLAS COUNTY WATER DISTRICT

Section 1. Purpose. The purpose of this Plan is to provide for the declaration of official phases of water supply shortages and the implementation of voluntary and mandatory water conservation measures throughout the NICHOLAS COUNTY WATER DISTRICT in the event a shortage is declared.

Section 2. Definitions. These terms are applicable only for this plan unless specifically noted.

- "Customer" shall mean any person or entity using water for any purpose from the NICHOLAS COUNTY WATER DISTRICT water distribution system and for which either a regular charge is made or, in the case of bulk sales, a cash charge is made at the site of delivery.
- "Raw Water Supplies" shall mean all water potentially available to persons in the NICHOLAS COUNTY WATER DISTRICT
- "Treated Water" shall mean water that has been introduced by the NICHOLAS COUNTY WATER DISTRICT into its water distribution system, including water offered for sale. Uses of treated water are classified as follows:

Essential Water Uses (Class 1):

The following uses of water, listed by site or user type, are essential.

Domestic:

Water necessary to sustain human life and the lives of domestic pets, and to maintain minimum standards of hygiene and sanitation. PUBLIC SERVICE COMMISSION

Health Care Facilities:

Patient care and rehabilitation, including related 8881 8 1 DUA filling and operation of swimming pools.

Water Hauling:

Sales of domestic use where not reasonably available elsewhere.

Plic Use:

BY COMMISSION MANAGER

Firefighting

Public Use:

- Firefighting,
- Health and public protection purposes, if specifically approved by health officials.

Socially or Economically Important Uses (Class 2):

The following uses of water, listed by site or user type, are socially or economically important.

Domestic:

 Personal, in-house water use including kitchen, bathroom and laundry.

Water Hauling:

 Non-domestic, when other sources are not reasonably available elsewhere.

Commercial and Civic Use:

- Commercial car and truck washes,
- Laundromats
- Restaurants, clubs and eating places.
- Schools, churches, motels/hotels and similar commercial establishments.

Outdoor Non-Commercial Watering:

- Minimal watering of vegetable gardens,
- Minimal watering of trees where necessary to preserve them.

Outdoor Commercial or Public Watering (using conservation methods and when other sources of water are not available or feasible to use):

- Agricultural irrigation for the production of Notod and fiber or the maintenance of livestock COMMISSION Watering by arboretums and public gardens of national,
- Watering by arboretums and public gardens of national, state, regional or community significance where necessary to preserve specimens,
- Watering by commercial nurseries at a minimum level necessary to maintain stock,

 Watering at a minimum level
- Watering at a minimum rate necessary to establish or maintain revegetation or landscape plantings required pursuant to law or regulation,
- Watering of woody plants where necessary to preserve them,

- Minimal watering of golf course greens.

Recreational:

Operation of municipal swimming pools and residential pools that serve more than 25 dwelling units.

Air Conditioning:

- Refilling for startup at the beginning of the cooling season,
- Makeup of water during the cooling season,
- Refilling specifically approved by health officials where the system has been drained for health protection or repair services.

Non-Essential Uses (Class 3):

Any waste of water, as defined herein, is non-essential. The following uses of water, listed by site or user type, are non-essential.

Public Use:

- Use of fire hydrants (excluding Class 1 and Class 2 uses), including use of sprinkler caps, testing fire apparatus an fire department drills,
- Flushing of sewers and hydrants except as needed to ensure public health and safety as approved by health officials.

Commercial and Civic Use:

- Serving water in restaurants, clubs, or eating seles, except by customer request,

 PUBLIC SERVICE COMMENTURY

 OF KENTUCKY
- Failure to repair a controllable leak, EFFECTIVE
- Increasing water levels in scenic and metrical ponds and lakes, except for the minimum and lakes. and lakes, except for the minimum amount required to support fish and wildlife.

 PURSUANT TO SUPPORT TO SUPPOR

Ornamental Purposes:

Fountains, reflecting pools and artificial waterfalls.

Outdoor Non-Commercial Watering:

- Use of water for dirt control or compaction,
- Watering of annual or non-woody plants, lawns, parks,

golf course fairways, playing fields and other recreational areas,

Washing sidewalks, walkways, driveways, parking lots, tennis courts or other hard-surface areas,

Washing down buildings or structures for purposes other than immediate fire protection,

Flushing gutters or permitting water to run or accumulate in any gutter or street.

Outdoor Commercial or Public Watering:

- Expanding nursery facilities, placing new irrigated agricultural land in production, or planting of landscaping except when required by a site design review process,
- Use of water for dirt control or compaction,
- Watering of lawns, parks, golf course fairways, playing fields and other recreational areas,
- Washing sidewalks, walkways, driveways, parking lots, tennis courts or other hard-surface areas,
- Washing down buildings or structures for purposes other than immediate fire protection,
- Flushing gutters or permitting water to run or accumulate in any gutter or street.

Recreational uses other than those specified in Class 2.

Non-Commercial washing of motor and other vehicles.

Air Conditioning (see also Class 2 purposes):

- Refilling cooling towers after draining MISSION

 "Base Entitlement" shall mean the Market Wisage for a customer during the same month of the prededing calendar (d) year or the average per customer usage for seach class of year or the average per customet service during the same month of the prepeding year;
- "Curtailed Entitlement" shall mean the monthly usage for (e) a customer after any curtailmentppercentage has been applied.

 "Curtailment" shall mean the reduction in entitlement by
- (f) some percentage to meet anticipated water shortages.
- (g) Water Shortage Response Phases:

"Advisory" shall mean that conditions exist which indicate the potential for serious raw or treated water supply shortages.

"Alert" shall mean that raw or treated water supplies are consistently below seasonal averages, and if they continue to decline, may not be adequate to meet normal needs.

"Emergency" shall mean that raw or treated water supplies are below the level necessary to meet normal needs and that serious shortages exist in the area.

- (h) "Rationing" shall mean that procedures must be established to provide for the equitable distribution of criticallylimited raw or treated water supplies, in order to balance demand and limited available supplies, and to assure that sufficient water is available to preserve public health and safety.
- Section 3. Applicability. The provisions of this plan shall apply to all retail and wholesale customers of the NICHOLAS COUNTY WATER DISTRICT. When implemented, this plan becomes NICHOLAS COUNTY WATER DISTRICT'S Water Shortage Response Regulation.
- Section 4. Entitlements. Entitlements shall be established for each customer by adjusting the base entitlement to reflect any known change in usage pattern.
- Section 5. Determination of Water Shortage. Water supply and usage shall be monitored on a continuous basis. Unrestricted demand shall be projected from past records and adjusted for changes such as new developments an weather conditions on a regular basis. (Note: A sample calculation page is attached as Appendix A to assist in determining overall water levels. It is important that accurate water measurements be used). Water shortages generally occur for two reasons, a reduction in available supplies or a system failure. Each of these has a distinct influence on the nature and distriction of the conservation program implemented. Official declaration of a water shortage stage and implementation of the measures newssary to curtail water use shall be approved by the Commissioners.
- Section 6. Term of Water Shortage Declaration. Any water shortage declaration shall remain in effect water supplies of service conditions have returned to normal. A final determination as to terminating a water shortage declaration shall be smalled by the Commissioners of NICHOLAS COUNTY WATER DISTRICT SERVICE COMMISSIONERS.

Section 7. Water Shortage Stage, Criteria, Conservation and Curtailment Measures.

A. Advisory Stage:

(1) Criteria: A water advisory shall be declared when the amount of treated water or raw water available for

treatment is projected to be up to 20% below demand, or there are periods of low water pressure in one or more areas of the distribution system due to system failure or inadequacies or the State Division of Water issues a Water Shortage Watch which includes the areas from which the NICHOLAS COUNTY WATER DISTRICT draws water. (Note: Additional conditions may be added based on local conditions passaunt to PSC approved.

(2) Conservation and Curtailment Measures:

- (a) Declare a Water Shortage Advisory.
- (b) Provide proper notice to all customers and to all local news media.
- (C) Eliminate all water leaks.
- (d) Request voluntary conservation of all nonessential (Class 3) water use.
- Request wholesale customers also issue request for voluntary conservation by their customers of all non-essential (Class 3) water use.

В. Alert Stage:

- (1)Criteria: A water alert shall be declared when the amount of treated water available is projected to be up to 25% below demand, or raw water supplies are consistently below seasonal averages and if they continue to decline, may not be adequate to meet normal needs. (Note: Additional conditions may be added based on local conditions, pursuant to PSC approved,
- (2) Conservation and Curtailment Measures:
 - (a) Declare Water Shortage Alert.
 - Provide proper notice to EANIE COMMISSION local news media. PUBLIC OF KENTUCKY (b) EFFECTIVE

- 2. <u>Conservation</u> and <u>Curtailment</u> <u>Measures</u>:
 - (a) Declare Water Shortage Rationing.
 - (b) Provide proper notice to all customers and to all local news media.
 - (c) Eliminate all water leaks.

- (d) Prohibit all Class 3 and Class 2 uses of water.
- (e) Curtail all commercial and industrial entitlements (except Health Care and Facilitates) by 100%.
- (f) Curtail all residential and wholesale entitlements by the same percentage as the projected shortage.
- (g) Implement service interruptions to portions of system in accordance with approved published schedule. The schedule shall be provided to all local media.
- (h) Begin billing customers water usage in excess of curtailment entitlement at the normal rate plus an excess usage charge of \$15.00 per 1.000 gallons.
- Section 8. Enforcement of Water Restriction. Any person who violates the provisions of this plan, who fails to carry out the duties and responsibilities imposed by this plan, or who impedes or interferes with any action undertaken or ordered pursuant to this plan shall be subject to the following:
 - (a) If the utility official charged with implementation and enforcement of this plan learns of any violation of any water use restriction imposed, a written notice of the violation shall be affixed to the property where the violation occurred and mailed to the customer of record. Said notice shall describe the violation and order that it be corrected, cured or abated immediately or within 48 hours.
 - (b) The notice will inform the customer of his or her right to appeal by requesting a hearing before the utility's designee. If a hearing is requested by the customer, he or she shall be given full opportunity to be heard before termination. The governing body shall make findings of fact and decide whether service should continue or terminate.

 PUBLIC SERVICE COMMISSION

 PUBLIC OF KENTUCKY
 - (c) Any customer whose water service reminated for violating provisions of this water curtailment plan shall be subject to the approved resolutection free prior to reconnection of service.
 - (d) The excess usage charge bPPRing provisions of this plan shall not be put in effect if a county or city ordinance containing penalty provisions in effect to assist enforcement of this plan.

Section 9. Request for Exception:

(a) Exception to water use restrictions: If compliance with any curtailment measure authorized herein would cause a customer to bear extraordinary hardship, that

individual or entity may apply to the <u>Water District</u>. for an exception. For these purposes, "extraordinary Mārdship" shall be defined as a condition which may threaten health and safety, or cause property or economic losses, each of which must be shown to be substantially more severe than the sacrifices borne by other users. If extraordinary hardship is found to exist, then an exception shall be granted and a written waiver issued to the customer. If an appeal is made, water service shall be continued until a decision is announced. Any person aggrieved by the decision may file a complaint with the Public Service Commission.

(b) Exception to curtailment surcharge: Exceptions to excess use charges shall not be considered or granted.

Section 10. <u>Severability</u>. If any provision of this plan is declared invalid by the courts, the remainder of the plan and its applicability to other persons and circumstances shall not be affected by that declaration.

Section 11. Effective Date. This Plan shall take effect immediately upon approval by the Public Service Commission.

ORDINANCE NO. 14__. 1982

AN ORDINANCE RAISING WATER AND SEWER CHARGES BY THE CITY OF CARLISLE AND PROVIDING A PENALTY FOR LATE PAYMENT THEREOF

Be it ordained by the City of Carliste as follows: .

That beginning with all bills sent or due after June 30,

1982, all water customers of the City of Carlisle, shall pay the following rates for water:

WATER RATES

First 1,000 gal, for minimum bill	\$4.00
Next 4,000 gal. at	\$1.40
Next 5,000 gal. at	\$1.35
Next 5,000 gal at	\$1.15
Next 10,000 gal. at	\$1.05
Next 75,000 gal. at	. 95
Next 100,000 gal. at	. 25
Next 300,000 gal. at	. 80
Next 500,000 gal. at	.75

The rate for all water hauled from the water plant is \$4.00 per 1000 gallons.

All water customers shall pay at least a minimum charge per month of \$4.00. All sewer customers shall pay a monthly sewer charge in an amount equal to one-half of their monthly water bill. The City Clerk shall so bill said customers.

A penalty of 10% of the bill will be assessed on all amounts not paid by the due date, which due date is 10 days after the bill is postmarked.

This ordinance shall take effect immediately upon its passage and publication as provided by law. All previously passed ordinances or parts thereof setting water charges are hereby amended to the extent set out herein.

SIGNED: Franchis 711 Franchis
